

DIFFERENTIAL MARKING IN KINANDE

MONICA ALEXANDRINA IRIMIA & PATRICIA SCHNEIDER-ZIOGA
(UniMoRe) & (CSU, Fullerton)

GOALS

- present previously undiscussed contexts of differential dependent marking in Kinande
- explore an account which places differential marking in the syntax

1. BACKGROUND

- differential marking: splits in the morpho-syntactic encoding of arguments regulated by features such as *animacy*, *definiteness*, *specificity*, *topicality*, etc. (Silverstein 1976, Aissen 2003, López 2012, a.o.)
- a typical example: animacy-based differential object marking (DOM) in Spanish (López 2012, Ormazabal and Romero 2013, a.o.), via a locative preposition

(1) DOM IN SPANISH – ANIMACY [DEPENDENT MARKING]

- | | | | | | |
|----|--------------------------|------------|--------------------------|----------|--------|
| a. | He | encontrado | *(a) | la | niña. |
| | have.1S | found | DAT/LOC=DOM ¹ | DEF.F.SG | girl |
| | ‘I have found the girl.’ | | | | |
| | | | | | |
| b. | He | encontrado | (*a) | el | libro. |
| | have.1S | found | DAT/LOC=DOM | DEF.M.SG | book |
| | ‘I have found the book.’ | | | | |

- another typical example: animacy & specificity based DOM in Swahili (Bantu; Riedel 2009: 42, 46—cited in Downing 2018, adapted here), via ‘object agreement’

(2) DOM IN SWAHILI – ANIMACY (HUMANS) & DEFINITENESS [HEAD MARKING]

- | | | |
|----|----------------------------|-----------------|
| a. | Ni-li- mw -ona | mwana-we. |
| | 1S-PST- 10M -see | 1child-POSS.3S |
| | ‘I saw his child.’ | |
| | | |
| b. | *Ni-li-ona | mwana-we |
| | 1S-PST-see | 1child-POSS.3S |
| | | |
| c. | Ni-li-(zi)-ona | picha hizo. |
| | 1S-PST-(100M)-see | 10picture those |
| | ‘I saw those pictures.’ | |

¹ Abbreviations: ACC = accusative, AFF = affirmative, ANIM = animate, APPL = applied, ASSOC = associative, CL = clitic, DEF = definite, DIR = directional, DOM = differential object marking, F = feminine, FV = final vowel, LK = linker, LOC = locative, M = masculine, N = neuter, NOM = nominative, OM = object marker, PL = plural, PASS = passive, POSS = possessive, PST = past, REV = reversive, SG = singular, TAM = tense-aspect-mood, TRANS = transitivizer, 1s = first person, 3s = third person, 1 = class one, 2 = class two, 3 = class three, etc.

2. DIFFERENTIAL MARKING IN KINANDE

- NEW OBSERVATION FOR BANTU LANGUAGES: DEPENDENT MARKING DIFFM
- 3 patterns

PATTERN 1

- Marking of **goals**; [ANIMACY-BASED DIFFM: PRONOUNS & HUMANS]
- 17LOC augmented form **oko** (elsewhere), augmentless form **uku** (pronouns, humans)

ANIMACY SCALE

(3) **1/2 >3>proper name >human >animate...** (Aissen 2003, a.o.)

(4) a. Kandi omúgulu ba-hĩka **okó** ndeko, omundú mw-á-hĩka **uku** Yésu...
again 3time 2-arrive 17LOC 9crowd, 1person AFF-3s-arrive UKU 1Jesus
'When they came to the crowd, a man approached Jesus' (Matthew 17:14)

b. Neryo Yésu ... mw-á-hika **oko** Yorodáni...
then 1Jesus AFF-3S-arrive 17LOC 19Jordan
'Then Jesus came ...to the Jordan....' (Matthew 3:13) [Nande Bible 1980 edition]

c. Mw-á-hík-ir-a **ukú/*oko** kákali.
AFF-3s-arrive-APPL-FV UKU/ 17LOC 12woman
'He arrived for a little woman (derisive diminutive).'

→ Common differential marking patterns with goals cross-linguistically

(5) ITALIAN DIFFERENTIAL MARKING OF GOALS - ANIMACY

a. Vado **in/*dalla** città.
go.1SG DIR/DIR=DOM.DEF.F.SG city
'I go to the city.'

b. Vado **dal/*in** dottore/mio amico.
go.1SG DIR=DOM.DEF.M.SG/DIR doctor/my friend.
'I go to the doctor/my friend.' (see Franco & Manzini 2017, a.o. for discussion)

(Augment-)Noun Class marker-Noun	
Augmented nouns	Augmentless nouns
o-mu-kali AUG-NC1-woman 'the/a woman'	mu-kali NC1-woman 'any woman'
e-ki-tabu AUG-NC7-book 'the/a book'	ki-tabu NC7-book 'any book'

Table 1. Nominal structure in Kinande

- **Augments in NPI contexts)**

- (6) a. Maryá **sy-á-wíte** **uku** kitábu.
1Marya NEG-3S-have UKU 7book
'Mary doesn't have **any** book.'
- b. Maryá **sy-á-wíte** **oko** kitábu.
1Marya NEG-3S-have 17LOC 7book
'Mary doesn't have **the** book.'
- (7) a. Magulu mw-a-teta-hek-ekya omulume y' **uku** mbago.
1Magulu aff-3s- NEG-help-SOCI 1man LK UKU plank
'Magulu didn't help the man carry any planks.' (there were no planks)
- b. Magulu mwatetahekekyá omulume y' **oko** mbago.
1Magulu aff-3s- NEG-help-SOCI 1man LK 17LOC plank
'Magulu didn't help the man carry the planks.'
- (8) a. omwana mwatetahuka riyi (ry') **umu** tsungu
1child aff-3s- NEG-cook 5egg LK UMU pan
'The child didn't cook any egg in any pan.' (He didn't cook at all.)
- b. omwana mw-a-teta-huka riyi ry' omo tsungu
1child aff-3s- NEG-cook 5egg LK 18LOC pan
'The child didn't cook any egg in the pan.' (He cooked something else there.)

- Pattern summarized:

Augmented form	Non-augmented form
oko 17LOC + AUG	uku 17LOC (- AUG)
*oko-e-bi-tabu [17LOC+AUG]-[AUG]-NC8-book 'to books'	*uku- e-bi-tabu [17LOC-AUG]-[AUG]-NC8-book 'to (any) books'
oko-bi-tabu [17LOC+AUG]-NC8-book 'to books'	uku- bi-tabu [17LOC-AUG]-NC8-book 'to any books'

Table 2. Kinande locatives

PATTERN 2

- **Predicative possession** [POSSESSION VS. OWNERSHIP]
- See Schneider-Zioga (2019) for some discussion
 - 17LOC *oko* differentially marks the possessed object based on whether possessed or owned (with *possessed* being marked with *oko*). *Possession* general correlates with *holding*

- (9) a. Kámbale a-wíte (***oko**) enyúmba. [-hold, +see]
 1Kambale 3S-have 17LOC 9house
 ‘Kambale has a house.’
- b. Kámbale a-wíte ***(oko)** kitábu. [+hold, +see]
 1Kambale 3S-have 17 LOC 7book
 ‘Kambale has a book.’
- c. A-wíte esyofarángâ.
 3S-have 10money
 ‘He has money (in general).’
 [-see]
- d. A-wíte **oko** farángâ.
 3S-have 17LOC 10money
 ‘He has money (on him).’
 [+hold, +see]
- e. A-wíte ekitumaíni.
 3S-have 7hope
 ‘She has hope.’
 [-see]
- f. Maryá a-wítý’ ámeso awûwéne.
 1Marya 3S-have 6eye 6beautiful
 ‘Mary has beautiful eyes.’
 [-hold, +see]

- cf: I have a car with me/*I have a house with me

(10) Nyi-na-wíte **oko** mutoka kw’ eyihya.
 1SG-VER.have 17LOC 3car 17LK 24outside
 ‘I indeed have a car outside.’

(11) a. A-na-wíte omutoka
 3SG-VER -have 3car
 ‘He has (owns) a car.’

b. A-na-wíte **oko** mutoka
 3SG-VER.have 17LOC 3car
 ‘He has a car available.’ (He might own it or just have it temporarily)

PATTERN 3

- **External possession—possessor raising**
See Schneider-Zioga & Mutaka (2019) for discussion
[SALIENCY-BASED DIFFM: OBJECTS HIGH IN PERCEPTUAL SALIENCE]
 - *oko* marks inalienable possessum; alienable & part/whole possessums are bare
 - **not internal possession!**
- (12) [ezípe y-a Sáráh] [phrase-internal possession]
9zipper 9-assoc Sarah
'Sarah's zipper'
- **inalienable possession: 17LOC *oko* dependent**-marks the inalienable possessum
- (13) a. ná-kúrugut-a [omugóngo w-a Sáráh] [phrase-internal possession]
1S-scrub-FV 3back 3-ASSOC 1Sarah
'I scrubbed Sarah's back.' (lit: I scrubbed the back of Sarah)
- b. ná-kúrugut-a [Sáráh] y' [*(oko-)mugóngo] [possessor raising]
1S-scrubbed-FV 1Sarah LK' 17LOC-3back
'I scrubbed Sarah's back (Lit: I scrubbed Sarah on the back.)
- inalienable possessors are bare; *oko* marks alienable & part/whole possessors:
 - **alienable possession: 17LOC *oko* dependent**-marks the animate possessor
- (14) a. ná-mat-ul-a [ezípe y-a Sáráh] [phrase-internal possession]
1S-fasten-REV-FV 9zipper 9-ASSOC 1Sarah
'I unfastened Sarah's zipper' (for example, on a dress she has, not nec. wearing)
- b. ná-mat-ul-a [*(oko-)Sáráh] kw' [ezípe] [possessor raising]
1S-fasten-REV-FV 17LOC-1Sarah LK' 9zipper
'I unfastened Sarah's zipper.' (she is necessarily wearing the thing with the zipper)
- **part/whole possession: 17LOC *oko* dependent**-marks the possessor/whole
- (15) a. mó-b-erír-y-e [ebíringó by-' omútoka] [phrase-internal possession]
AFF-2-clean-TRANS-FV 8wheel 8-ASSOC' 3car
'They cleaned the wheels of the car.' (the wheels could be separate from the car)
- b. mó-b-erír-y-e [*(okó-)mútoká] kw' [ebíringo] [possessor-raising]
AFF-2-clean-TRANS-FV 17LOC-3car LK' 8wheel
'They cleaned the wheels of the car.' (wheels are on the car)

Pattern 1	GOALS & SOURCES	
uku/oko	▶ pronouns, humans:	UKU
	▶ all others:	OKO
Pattern 2	PREDICATIVE POSSESSION	
oko/∅	▶ possession:	OKO
	▶ ownership:	∅
Pattern 3	EXTERNAL POSSESSION	
oko/∅	▶ inalienable	
	---- possessum marked with OKO	
	▶ non-inalienable	
	• alienable	
	• part/whole	
	----possessum marked with ∅	
	----possessor/whole marked with OKO	

TABLE 3. SUMMARY – DIFFERENTIAL MARKING PATTERNS IN KINANDE

3. DIFFM IN MORPHOLOGY OR SYNTAX?

- Morphological approaches: dedicated marking on certain objects does not have syntactic correlates
 - o The special marking is the result of impoverishment phenomena in the morphology applying either to DIFFM or to non- DIFFM objects (Halle and Marantz 1993, Keine and Müller 1998, a.o.)
 - o Or via the insertion of a special morpheme to signal certain specifications such as *animacy*, etc. (López 2012, a.o.)
 - o Important prediction: the same syntactic configuration is exhibited by both differentially marked objects and the non-differentially marked ones, implying the same syntax
- What Kinande shows: differential objects are syntactically distinct

4. SYNTACTIC EFFECTS OF DIFFM

Animate/inanimate locative distinction

→ DISTRIBUTION OF OKO/UKU IS SENSITIVE TO SYNTACTIC STRUCTURE

• **Animate/inanimate locative distinction**

- (16) a. Omundú mw-á-híka **uku** / ***oko** Yesu. [ANIMATE LOCATIVE: UKU]
1person AFF-3S-arrive (-AUG)17LOC/ *17LOC 1Jesus
'Someone came to Jesus.'
- b. Omundú mw-á-híka **uku** /**?oko** Yésú k' omotututu.
1person AFF-3S-arrive (-AUG)17LOC/ 17LOC 1Jesus LK' 18morning
'Someone came to Jesus in the morning.'
- (17) a. Omundú mw-á-híka ***uku** /ok: **oko** muyî. [INANIMATE LOCATIVE: OKO]
1person AFF-3S-arrive (-AUG)17LOC/ 17LOC 3village
'Someone came to the village.'
- b. Omundú mw-á-híka ***uku** /ok: **oko** muyí kw'omotututu.
1person AFF-3S-arrive (-AUG)17LOC/ 17LOC 3village LK' 18morning
'Someone came to the village in the morning.'
- (18) a. N-ibá-**ky**' **oko** / ***uku** Maryâ verb] **enclitic**] *oko* / **uku*
1S-steal-7CL 17LOC/ (-AUG)17LOC 1Marya
'I stole it from Mary.'
- b. Ná-**ki**-iba _____ ***oko** /ok: **uku** Maryâ **proclitic**-verb] ___] *uku* /**oko*
1S-7OM-steal 17LOC/ (-AUG)17LOC 1Marya
'I stole it from Mary.'
- c. Ékihi_j kyó w-ibá ____j ***oko** /ok: **uku** Marya WH_j.... verb] ____j *uku* /**oko*
7what 7FOC 2S-steal 17LOC/ (-AUG)17LOC 1Marya
'What did you steal from Mary?'

- **uku** possible when next to verb, but it cares about syntactic structure it is in, too—we return to this in section

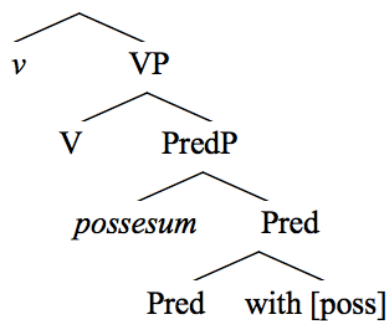

- (19) **OKO** /***UKU** Maryá ko n-ibá ekigulíro.
17LOC (-AUG)17LOC 1Marya 17FOC 1S-steal 7necklace
'It is from Mary that I stole the necklace.'

Predicative possession (have)

→ ORDERING DIFFERENCES, POSSESSION VS. OWNERSHIP

<p>(20) a. Tu-ná-wítý' oko mukátí kó hano. 1pl-indeed-have 17LOC 3bread LK 16here 'We do have bread here (with us).'</p>	<p>OKO POSSESSUM ADVERB</p>
<p>b. Tu-ná-wíté hanó h' oko mukátí. 1pl-indeed-have 16here LK 17LOC 3bread 'We do have here (with us) bread'</p>	<p>ADVERB OKO POSSESSUM</p>
<p>(21) a. Tu-ná-wítý' enyúmbá yó hano. 1pl-indeed-have 9house LK 16here 'We do indeed have a house here.'</p>	<p>POSSESSUM ADVERB</p>
<p>b. *?Tu-ná-wíté hanó h' enyúmba. 1pl-indeed-have 16here LK 9house 'We do indeed have a house here.'</p>	<p>*ADVERB POSSESSUM</p>

- Bare possessa must remain next to the verb; differentially oko-marked possessa need not
- Bare possessa sensitive to definiteness effects; differentially oko-marked possessa are not (e.g., (19a) cannot mean: We do indeed have the house here.
- Small clause structure: possession = have [POSSESUM [with POSSESOR]]
(cf: She has a book on her)

Possessor raising constructions

→ INALIENABLE POSSESSION: ORDERING, PASSIVIZATION

- (22) a. mó-na-lak-ír-y-e [Kámbalé] y' [**okó** níndo]
AFF-1S-hit-TAM-TRANS 1Kambale LK' 17LOC 9nose
'I hit Kambale in the nose.'
- POSSESSOR OKO-POSSESSUM
-
- b. *mó-na-lak-ír-y-e [**okó** níndo] ko [Kámbalé]
AFF-1S-hit-TAM-TRANS 17LOC 9nose LK 1Kambale
- *OKO-POSSESSUM POSSESSOR
-
- (23) a. Kámbale; a-lak-i-báwa ___j **okó** níndo
1Kambale 3S-hit-TRANS-PASS 17LOC 9nose
'Kambale was hit on the nose.'
- POSSESSOR V-PASS POSSESSUM
-
- b. *énindó y-a-lak-i-báwá-**ko** Kámbale
9nose 9-TAM-hit-TRANS-PASS-KO 1Kambale
- *POSSESSUM V-PASS-KO POSSESSOR
-
- c. énindó y-a-lak-i-báwá-**kô**
9nose 9-TAM-hit-TRANS-PASS-KO
'(His) nose was hit.'
- POSSESSUM V-PASS-KO
-
- d. ***okó** níndo y-a-lak-i-bawâ
17LOC 9nose 9-TAM-hit-TRANS-PASS
'(His) nose was hit.'
- *OKO POSSESSUM V-PASS

→ ALIENABLE POSSESSION & PART WHOLE

(24) a. Mónatulángire [oko nyúngú] kw' [omúkóno].
AFF-1S-broke-TAM 17LOC 9pot LK 3handle
'I broke the vessel's handle.'

b. Mónatulángire [omúkónó] w' [oko nyúngu].
AFF-1S-broke-TAM 3handle LK 17LOC 9pot
'I broke the vessel's handle.'

(25) a. Ebíringó by-éri-báwa okó mútoka.
8wheel 8-cleaned-PASS 17LOC 3car
'The wheels were cleaned on the car.'

b. Okó mútoka kw-éri-báwa ebíringó.
17LOC 3car 17-cleaned-PASS 8wheel
'On the car was cleaned the wheels.'

c. Omútoka éri-báwá-ko ebíringó.
3car 3cleaned-PASS-KO 8wheel
Literally: The car was cleaned-on the wheels.
'On the car was cleaned the wheels.'

- (Alienable possessa behave like part/whole possessa)

INALIENABLE POSSESSION - oko possessum	WORD ORDER ▶ strict ordering: POSSESSOR POSSESSUM PASSIVIZATION difficult for possessum; POSSESSUM V-PASS-KO
PART/WHOLE & ALIENABLE POSSESSION - bare possessum	▶ free ordering POSSESSOR POSSESSUM POSSESSUM POSSESSOR PASSIVIZATION easy for possessum; ▶ POSSESSUM V-PASS-KO ▶ OKO POSSESSUM V-PASS

TABLE 4. SUMMARY OF PROPERTIES OF DIFFERENTIALLY MARKED POSSESSA

5. DIFFM IN SYNTAX

- syntactic effects in Kinande → therefore, **DIFFM** is syntactic in Kinande (not just a morphological phenomenon)

- two main approaches: dependent Case (Baker 2015, a.o.) and Case licensing
 - o common implementation for DOM: accusative Case feature on the marked objects forces their raising into a domain where they enter into a Case competition with a higher argument (Marantz 1991, Baker and Vinokurova 2010, Preminger 2011, 2014, Levin and Preminger 2015, Baker 2015, a.o.). This is schematically represented in (I):
 - I. Dependent Case
 - Let DP1 and DP2 be two nominals in the same domain. If DP1 c-commands DP2:
 - a. mark DP1 [= in the clause, ERGATIVE] and/or
 - b. mark DP2 [= in the clause, ACCUSATIVE] (Baker 2015, a.o.)
 - o Kinande data do not exhibit diagnostics of raising outside of vP, making difficult a dependent Case explanation, especially given that subjects are generated high (see Schneider-Zioga 2000, 2007)
 - o Case licensing is the available account then

PATTERN 2—PREDICATIVE POSSESSION

- (26) a. Kámbale a-wíte **(*oko)** enyúmba. [OWNERSHIP]
1Kambale 3S-have 17LOC 9house
'Kambale has a house.'
- b. Kámbale a-wíte ***(oko)** kitábu. [POSSESSION]
1Kambale 3S-have 17 LOC 7book
'Kambale has a book.'

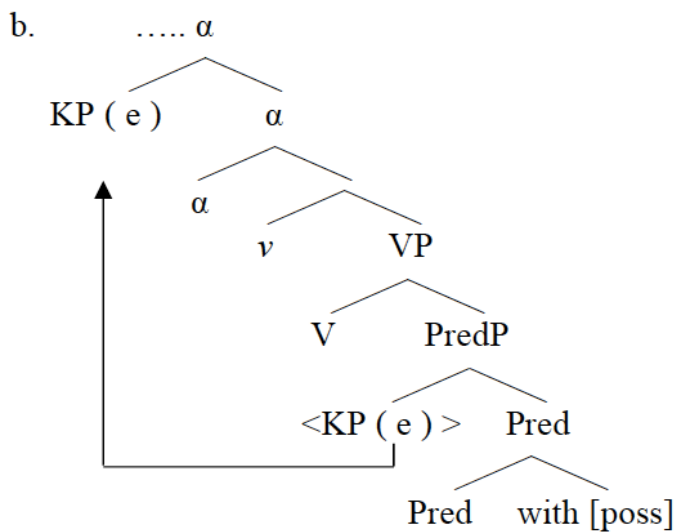

(27) **Predicative possession:**
a. ownership

b. possession

(28) **Predicative possession**

• **difference in passivization possibilities:**

- (29) a. Ekitábu ki-wít-w-é-ko (na Kámbale) [DIFFM (possession) : yes]
7book 7-have-PASS-FV-17LOC (with Kambale)
Literally: 'The book was had by Kambale.'
- b. *omútoka a-wít-w-e (na Kámbale) [not DIFFM (ownership): no]
3car 3-have- PASS-FV (with Kambale)
intended: 'The car was had (by Kambale).'

PATTERN 3—EXTERNAL POSSESSION (POSSESSOR RAISING)

(30) ná-kúrugut-a [Sárah] y' [***(oko-)**mugóngo] *Inalienable possession*
 1S-scrubbed-FV 1Sarah LK' 17LOC-3back
 'I scrubbed Sarah's back.'

(31) ná-mat-ul-a [***(oko-)**Sárah] kw' [ezipe] *Alienable/Part-whole possession*
 1S-fasten-REV-FV 17LOC-1Sarah LK' 9zipper
 'I unfastened Sarah's zipper.'
 (where the raising construction is involved, Sarah is necessarily wearing the thing with the zipper)

- Locative predicative possession means approximately: “on X is Y,” where X is the whole/possessor of something alienable. Here are illustrative examples:

(32) a. omúti **a-né** - kw' ehinyúnyu
 3tree 3-be(assertive) 17LOC 19bird
 'The tree has birds (on it).'

b. etsúkudu yi-**rí-ko** ebíringo
 9cart 9be-17LOC 8wheel
 'The cart has wheels (on it).'

PATTERN 3: *oko*-marked inalienable possessum [ex. (13)b, repeated in (30)]
oko-marked alienable possessor [ex. (14)b, repeated in (31)]

- **inalienable possession**

- **alienable/part-whole**

PATTERN 1: DIFFM & ADJACENCY

- more specifically, a certain type of DIFFM – connected to a licensing strategy beyond what is normally assumed for nominals (i.e., structural Case) (Irimia 2018, 2019, a.o.)
- higher animates linked to a [PERSON] specification (Richards 1998, a.o.)
- what needs further attention: the connection between [PERSON] and adjacency (see Van Urk 2020 for [PERSON] licensed under adjacency)
- we see that adjacency is needed for [PERSON] licensing in the examples below (**PATTERN 1: marking of GOALS/SOURCES**) with a structural twist as in (31)
- The twist is when the GOAL/SOURCE is in a specifier position (see 31): in this structure both *oko* and *uku* seem to be allowed

(34) a. N-ibá-**ky**' **oko** / ***uku** Maryâ
1S-steal-7CL 17LOC/ (-AUG)17LOC 1Marya
'I stole it from Mary.'

verb] **enclitic**] *oko* / **uku*

b. Ná-**ki**-iba _____ ***oko** /ok: **uku** Maryâ
1S-7OM-steal _____ 17LOC/ (-AUG)17LOC 1Marya
'I stole it from Mary.'

proclitic_j-verb] ____j *uku* /**oko*

c. Ékihi_j kyó w-ibá ____j ***oko** /ok: **uku** Marya
7what 7FOC 2S-steal _____ 17LOC/ (-AUG)17LOC 1Marya
'What did you steal from Mary?'

WH_j... verb] ____j *uku* /**oko*

(repeats (14b), but with bracketing)

(35) Omundú mw-á-híka [[**uku** /?oko Yésú [k' omotututu]]
1person AFF-3S-arrive (-AUG)17LOC/ 17LOC 1Jesus LK' 18morning
'Someone came to Jesus in the morning.'

(36) **CONCLUDING REMARKS**

- patterns of dependent marking in Kinande, similar to oblique DIFFM cross-linguistically
- licensing strategies to derive the *oko*-marked DIFFM in Kinande

THANK YOU!

Comments are highly appreciated
